

XCam-Edge

Paving Intelligence into Safety, Security & Mobility

All-in-one Smart Traffic Camera

Highways - Bridges - Tunnels - Toll Roads

The new generation **XCam-Edge** is specifically designed for the combined challenges of traffic video surveillance and video analytic applications within a compact and cost effective product.

This all-in-one Automatic Incident Detection (AID) camera provides a color, H.264, full frame resolution video (768x576) at up to 30 frames per second. Specifically designed for traffic applications, it incorporates a Wide Dynamic Range CMOS Sensor to enhance the detection performances especially in highly contrasted environments often found on road and traffic monitoring applications.

Its latest generation processor enables the **XCam-Edge** to simultaneously process the full range of Citilog's field proven AID and Traffic Data collection solutions, while providing extensive IP video capabilities.

Compliant with all international traffic standards, the **XCam-Edge** combines an IP camera and an Automatic Incident Detection system in a single unit, thus providing significant cost savings compared to traditional AID architectures both in terms of capital costs and operating costs.

The **XCam-Edge** is designed for all types of traffic applications and environments such as tunnels, highways or bridges.

Incidents Detected

- ✓ Stopped vehicles
- ✓ Slow vehicle
- ✓ Slowdown
- ✓ Wrong way vehicle
- ✓ Pedestrian

Traffic Data Collection

- ✓ Vehicle counting
- ✓ Vehicle classification
- ✓ Average speed
- ✓ Occupancy
- ✓ Levels of Services

IP CCTV READY

SPECIFICATIONS

The **XCam-Edge** takes advantage of the latest developments in IP video and is compatible with all industry standards. It can simultaneously provide two streams, H264 and MJPEG up to full frame resolution.

H264 & MJPEG Video Streaming Compression Resolution 320 x 240 to 768 x 576 Frame rate 5 fps to 30 fps CMOS 1/2.7" WDR Sensor type Hardware 1280 x 800 (WXGA) Sensor Resolution +48V PoE Power supply Ethernet Interface IP rating IP67 Housing 1.5kg (3.3 lbs) Weight Material polycarbonate Norms NEMA-TS2 Environnemental Part **Environmental & regulatory** -34°C to +74°C (-30°F to +167°F) **Operating Temperature** Humidity 0 to 95% RH, non condensing Approvals CE / FCC part 15 Class A / RoHs

XCam-Edge

Key benefits

- Optimizes bandwidth requirements
- Reduces central hardware requirements
- Reduces Video system global
 Cost of Ownership

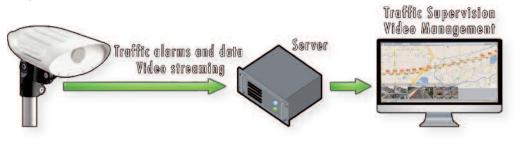

USER FRIENDLY INTERFACE

MediaManager, the newly developed Citilog GUI, provides supervision and administration functionalities through a user friendly interface. Along with all other Citilog products, the **XCam-Edge** can be integrated into **MediaManager**.

FLEXIBLE ARCHITECTURE

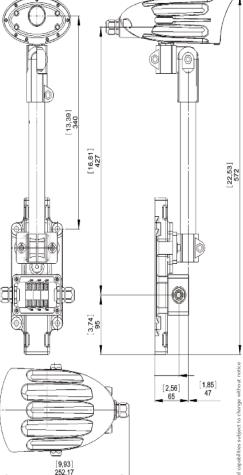

The **XCam-Edge** combines the features of a traffic dedicated IP camera with state of the art video analytics. It can be installed as a standalone CCTV/AID equipment or integrated into a complex existing CCTV system.
