

# MSHRR-300X Angle Coverage

## Possible installation over fence

### Parameters:

Fence height = 3 meters installation poles height  $h=3.5$  meters

range of detection = 180 meters

azimuth spread angle = 12 degrees

elevation angle spread = 4 degrees

full fence coverage is achieved at  $d=50$  meters

distance between sensors  $D=140$  meters
