

GPO 150 - Next Generation UTM solution

The gateprotect GPO 150 Next Generation UTM solution is the entry-level product for Unified Threat Management and thus enables the competitively priced all-round protection for lawyers' offices, medical practices, small companies and offices. Thanks to the applied eGUI technology and a powerful protection against malware, spam, Trojans, phishing and other attacks, comprehensive security of the network is achieved.

The latest hardware includes four network interfaces that can be individually configured and enables high transfer rates so that comprehensive UTM security is assured even for several users. Likewise, the GPO 150 is perfectly suited as an endpoint for the secure connection (via VPN) to a network protected by a gateprotect Next Generation Firewall. The set-up and connection via VPN is absolutely simple – one click is all it takes. Thanks to its compact size and favorable price, the GPO 150 is the ideal solution for small companies and offices that do not want to forgo comprehensive IT security even though budgets are low.

F© C€ (N)

Specifications	GPO 150
Interfaces	
1 GbE Ports	4xRJ45 (front)
System Performance*	
Firewall throughput (MBit/s)	1 700
VPN IPSec throughput (MBit/s)	200
UTM throughput (MBit/s)	100
IPS throughput (MBit/s)	250
Dimensions	
H x W x D (mm)	42 x 210 x 210
Gross Weights (kg)	2.9
Power	
Input Voltage (V)	AC 100-240
Full load power consumption (W)	35 W
Environmental	
Operating Temperature (°C)	0 ~ 40
Storage Temperature (°C)	-10 ~ 70
Relative Humidity (Non condensing)	20 ~ 90 %

Hardware Certification

gateprotect AG Germany has been a leading, globally acting provider of IT security solutions in the area of network security for more than ten years. These solutions comprise Next Generation UTM Firewall with all commonly used UTM functionalities, managed security as well as VPN client systems.

Reputable companies and institutions in more than 80 countries worldwide trust gateprotect as their partner for IT network security. Since 2010, gateprotect has been listed in the renowned "Gartner Magic Quadrant" for UTM firewall appliances. For the easy operability and comprehensive security of the Next Generation UTM Firewall solutions, gateprotect was the first German company to be honored with the Frost & Sullivan Excellence Award.

FEATURE OVERVIEW

Next Generation UTM Appliances

The Next Generation UTM Appliances from gateprotect are characterized by optimal scalability, security and performance. Thanks to a unique and patented eGUI® Technology, gateprotect sets standards when it comes to the configuration of modern security systems.

gateprotect's eGUI® Technology raises operating security and efficiency to a previously unattained level. Furthermore, gateprotect is the only manufacturer worldwide to implement the ISO NORM 9241 standard, gateprotect was recently honored with the Frost & Sullivan Best Practices Award 2011.

"gateprotect provides UTM products that stand-out from the competition due to their ease-of-use and security effectiveness. The gateprotect ergonomic graphical user interface (eGUI) provides the most intuitive and effective visual UTM management interface available in the marketplace."

Frost & Sullivan, August 2011

Feature Specifications

MANAGEMENT

- Role based Firewall Administration
- Desktop configuration saved / restored separately from backup
- Object oriented firewall configuration
- Direct Client Update function

Ergonomic Graphic User Interface

- ISO 9241 compliant
- Immediate visual feedback for each setting
- Self-explanatory functions
- Overview of all active services
- Overview of the whole network
- Layer and zoom function

USER AUTHENTICATION

- Active Directory / OpenI DAP support
- Local User database
- Web-interface authentication
- Windows-client authentication
- Single sign on with Kerberos Single- and Multi login
- Web Landing page

LAN / WAN-SUPPORT

- Ethernet 10/100 MBits/s
- Gigabit Ethernet
- MTU changeable (Ethernet/DSL)
- PPP-PAP, PPP-CHAP authentication
- Inactivity timeout / Forced disconnect time
- xDSL
- Multi WAN support
- WAN failover
- Loadbalancing
- Time controlled internet connections
- Manual and automatic DNS assignment
- Multiple dynDNS support
- Source based routing
- Routing protocols RIP, OSPF
- DHCP

VLAN

- 4094 VLAN per interface
- 802.1g ethernet header tagging Combinable with bridging

- OSI-Layer 2 firewall function
- Spanning tree (bride-ID, port-cost) Unlimited interfaces per bridge
- Combinable with VPN-SSL

UNIFIED THREAT MANAGEMENT

Web-filter

- URL-Filter with safe search enforcement
- Content Filter
- Block rules up to user-level
- Black-/ White lists
- Import / Export of URL lists
- File Extension blocking
- Category based website-blocking
- Self definable categories
- Scan technology with online-database
- Intransparent HTTP-proxy support

Application Control

- Layer 7 Packet filter (DPI)
- Filter Applications instead of ports
- Detection & Control of Skype, Bittorrent and others as well as Web 2.0 Applications like Facebook

Antivirus

- Kaspersky Anti-Virus Engine
- Complete Protection from all malware
- FTP, POP3, SMTP
- Exceptions definable
- Manual and automatic updates

Antispam

- Scan-level adjustable
- Real-time Spam Detection
- GlobalView Cloud using Recurrent Pattern Detection (RPD)
- Mail Filter
 - Black- / White lists
 - Automatically reject/delete emails
- AD Email address import

Intrusion Prevention

- Individual custom rules
- Security-level adjustable
- Rule groups selectable
- Exceptions definable
- Scanning of all interfaces
- DoS, portscan protection
- Malicious network packet protection

Proxies

- HTTP (transparent or intransparent)
- local user database
- FTP POP3 SMTP SIP
 - Time-controlled

TRAFFIC SHAPING / QOS

- Multiple Internet connections separately shapeable
- All services separately shapeable
- Maximum and guaranteed bandwidth adjustable QoS with TOS-flags support QoS inside VPN connection support

HIGH AVAILABILITY

- Active-passive HA
- State synchronization
- Single and Multiple dedicated links support
- Stateful Failove

BACKUP & RECOVERY

- Small backup files
- Remote backup & restore
- Restore backup on installation
- Automatic and time based backups Automatic upload of backups on FTPor SCP-Server
- USB Drive recovery option

LOGS, REPORTS, STATISTICS

- Email Reporting Logging to multiple syslog-servers
- Logs in admin-client (with filter)
- Export to CSV-files
- IP and IP-group statistics
- Separate services Single user / groups
- TOP-lists (Surfcontrol)
- IDS- / Traffic-statistics Application Control traffic statistics
- Antivirus- / Antispam-statistics Defence statistics

MONITORING

- System Info (CPU, HDD, RAM)
- Network (interfaces, routing, traffic, errors)
- Processes
- User Authentication

SNMP

- SNMPv2c
- SNMP-traps

VPN

- VPN wizard Certificate wizard
- Site-to-Site
- Client-to-Site (Road Warrior)

Export to One-Click-Connection X.509 certificates

CRL

IPSec

- OCSP Multi CA support
- Multi Host-cert support
- Tunnel mode IKEv1, IKEv2
- PSK / Certificates
- DPD (Dead Peer Detection) NAT-T
- XAUTH, L2TP

- Routing mode VPN
- Bridge mode VPN
 - TCP/UDP
- Specify WINS- and DNS-Servers

- Support for Radius server, AD server,

COMMAND CENTER

- Monitor & Active Configuration of
- 500+ firewalls Central Configuration and Monitoring of VPN Connections
- Single and group backup Plan automatic backup in groups
- Single and group update & licensing Create configuration templates and
- apply on multiple firewalls Certificate Authority Certificate based 4096 bit encrypted
- connections to the firewalls Display settings of all firewalls Role based User Management
